CONTRACTOR Plant Construction

SIZE 73,000 square feet

TYPE Cultural/Institutional, Historic Rehabilitation, Office, Tenant Improvements

BUDGET \$113,000,000

ADDRESS 104 Montgomery, Presidio of San Francisco, San Francisco, California

STATUS Complete 2009

DESCRIPTION The addition of this magical museum to the National Historical Landmark District of the Presidio in San Francisco is a wonderful tribute to the genius of Walt Disney. D. R. YOUNG ASSOCIATES (in association with T. J. REAGAN, INC.) served as Owner Representative and Development Manager for the adaptive reuse of three historic structures. Now open, this project features exhibit and gallery space, a 123-seat theater, a learning center and archives for the curation of the Walt Disney family's collection of historic and priceless artifacts. In addition to telling the story of Walt Disney, the mission of the museum is to be a place which will inspire future generations and to demonstrate what can be created when the power of imagination is combined with the spirit of entrepreneurship.
